Read below for topics covered or click links to view the video section for that topic.

News & Updates

- DSHS Leadership addressed the recent news about the Johnson & Johnson/Janssen COVID-19 vaccine. Look for updates on the Department of State Health Services [website](#) and in emails from txhhs@public.govdelivery.com.
- DSHS is launching a new Weekly E-Newsletter. Watch for it each Friday to find critical, timely updates from the past week, navigate to helpful resources, and register for weekly webinars!
- Tell your organization's CMO and CEO to look out for an informational email from txhhs@public.govdelivery.com detailing how to authorize transfer requests via DocuSign.

VAOS System Enhancements & Updates

- When authorizing a transfer request, remember that both the CMO and CEO need to sign the CDC Redistribution Agreement via DocuSign. If your CMO and CEO are the same person, they will need to open both links sent to them and sign the form twice, once for each role.
- You can now select more than one of the COVID-19 vaccine presentations when requesting an allocation. Please continue to request allocations weekly.

COVID-19 Vaccine Clinical Considerations

- The [CDC Patient Safety Checklist for Vaccination Clinics Held at Satellite, Temporary, or Off-Site Locations](#) can be used to help clinic coordinators/supervisors prepare for COVID-19 vaccination clinics.

ImmTrac2 and TDEM Reporting

- COVID-19 Vaccine Providers must report daily vaccine administration in both ImmTrac2 and TDEM. Log in to each system separately to record the required information.

Session Live Q&A:

- How long do we have to administer a vaccine after we receive it?
- Is the quantity on hand we enter in VAOS doses or vials?
- Can we give people 2nd doses out of our 1st dose allocation?
- Can we convert doses we received from a transfer into first or second doses?
- Who do we contact if we have questions about a vaccine shipment?
